Dear Fellow Visionaries:

In 2005 the City Council completed a year long visioning process with input from visionaries like you. The purpose of that process was to set a blueprint for what the City could become to achieve its full potential. The Tomorrow's Vision Report adopted the following mission statement:

"Tomorrow's Vision will create a plan that will define our unique identity, assure quality of life and make Green Cove Springs a premier 21st century city that reflects our traditional values, natural features and historic characteristics".

Many of the recommendations within the Vision Report have been accomplished, but some goals have yet to be attained. A copy of the entire Vision Report may be found on the City's website at www.greencovesprings.com.

Therefore, the Mayor and Council would like to invite you to review Tomorrow's Vision for Green Cove Springs and develop new goals for the City. Please join us for a visioning session on:

Saturday, April 21st
9 AM to 4 PM
City Council Chamber
City Hall
321 Walnut Street

We appreciate you giving your time for the betterment of Green Cove Springs and we look forward to seeing you on the 21st. Your input is vital to the success of our efforts!

Yours in Service,

Deborah L. Ricks, Mayor

Pam Lewis, Vice Mayor

Felicia Hampshire, Council Member

Bob Page, Council Member

Mitch Timberlake, Council Member
